

TOUCH SYSTEMS

Intel "Performance" Socket 478 Pentium 4/Celeron Series

PERFORMANCE

- ◆ Intel 865P or 865G Chipset, 800/533/400MHz Front-Side Bus with support for Intel HyperThreading Technology
- ◆ *Dual Channel Memory Architecture*
- ◆ 2xSerialATA/150 Ports, 2x UltraATA100 Ports
- ◆ *Colour-Coded I/O Ports: 1 Floppy, 1 Parallel, Up to 8xUSB 2.0, 1 Serial, PS/2 Keyboard & Mouse*
- ◆ AGP8X Slot For High-End Graphics
- ◆ *Onboard 10/100 Ethernet LAN Controller*
- ◆ PC Health Monitoring: Asus PC Probe, LiveUpdate
- ◆ *Up to 4 M-bit Flash EEPROM For Updating Bios*
AMI w/ ACPI • DMI 2.0 • WFM 2.0 • WOL • WOR

FLEXIBILITY

- ◆ 4 DDR Sockets Support Up To 4GB PC3200 DDR SDRAM
- ◆ *Up to 5 PCI, 1 AGP8X/Pro, up to 8x USB 2.0*
- ◆ Bays: 4x 5¼", 2x 3½", 1x 3½" internal (ATX Tower)
2x 5¼", 2x 3½", 1x 3½" internal (MicroATX Tower)
- ◆ *Supported Power Supplies: 300W*
- ◆ AI Audio/Net/Overclocking/BIOS, FireWire, Gigabit Ethernet LAN, RAID, UltraATA133, Video, Wi-Fi and WinDVD Software Suite Options Available
- ◆ *Optional Internet Keyboard Available (Ask Your Dealer)*

QUALITY

- ◆ Extra-Heavy Gauge Case Construction
- ◆ *High-Quality Dual-Cooling Fans; Heat-Flow Tested*
- ◆ ISO 9002 approved, ULc compliant
- ◆ *Lithium Battery For Durability & Reliability*
- ◆ High-Quality DIMMs & Bus Slot Connectors
- ◆ *CFC-Free Manufacturing; Recyclable Packaging*
- ◆ Standard Touch 3-Year Limited Warranty
(visit <http://www.touch-systems.ca> for details)

- ◆ Intel Pentium 4 Socket 478 (up to 3.06GHz+ / 800FSB) or Intel Celeron Socket 478 (up to 2.8GHz+ / 400FSB) CPUs
- ◆ Up to 4GB PC3200 non-ECC DDR SDRAM
- ◆ 40GB~320GB UltraDMA or SCSI Hard Drives
- ◆ CD-R/RW, DVD-R/ROM and Combo RW Drive(s)
- ◆ 56Kbps V.92 PCI Internal Data/Fax Modem
- ◆ 64MB/128MB/256MB AGP4X/8X 3D Graphics Card
- ◆ Integrated 6-Channel PCI Audio Controller
- ◆ Microsoft Windows 2003/2000/XP Home/XP Professional
- ◆ FDD, Keyboard, Mouse, MousePad, Manual

A LOOK AT HYPERTHREADING

HyperThreading: The Power To Do More.

PCs are now faster and more efficient. Desktop systems that have the Intel® Pentium® 4 Processor with Hyper-Threading (HT) Technology break new ground by combining world-class frequency with Hyper-Threading Technology to provide an extraordinary computing experience.

Running at 3.06GHz, the newest Intel Pentium 4 CPU supports HT Technology—pioneered on Intel's advanced server processors—to help PCs work more efficiently by maximizing CPU resources and enabling a single CPU to run two separate threads of software at the same time for dramatically improved performance and greater system responsiveness when running multiple applications simultaneously. So you can multi-task like never before.

For more details, visit Intel's website at <http://www.intel.com> and discover the difference that an Intel Pentium 4-3.06GHz CPU can make inside an award-winning Touch System today.

CASE OPTIONS

THESE CONFIGURATIONS ARE AVAILABLE WITH TOUCH MICRO AND ATX MID-TOWER CASES. PLEASE CONSULT YOUR DEALER FOR MORE OPTIONS.
